MEMORANDUM FOR: Deputy Director(Plans)

SUBJECT: Regularly scheduled Teletype Conferences

1. In the course of a study of the work-load imposed on the communications facilities at Headquarters and major overseas stations, the weekly radio teletype conferences have been considered. It is my opinion that the current value of these regular conferences is not sufficient to warrant the expenditure of extremely valuable radio circuit time in addition to the drain on the already over-loaded Signal Center personnel in Washington and [redacted]. I propose therefore, that effective 1 April, the regularly scheduled teleconferences be discontinued and that this type of facility be utilized only on an individual case basis when circumstances warrant. Since I understand that your [redacted] staff participate in the weekly conferences, I am informing you of the above.
